CONTRAST

Modular Express by ege

A breath of fresh air

With a strong character and modern look the Contrast collection adds new dimensions to the Modular Express concept; from businesslike and strict to free-floating and wild. Organised in five evocative design stories Contrast fits into a broad range of different environments.

Contrast explores tangible elements and structures found in these environments. While randomly zooming in and out Contrast breaks up well-known constructions to unite them in new ways, adding depth and structure to the designs by playing with contrasts in size, shape and colour.

Contrast presents an expressive range of designs from classic and uniform to fresh and bold. By recolouring and combining designs and colour variations, an individual and highly personal floorscape can be created. Altogether making Contrast a breath of fresh air within carpet tile collections.

- 48 x 48 cm carpet tiles with striking designs
- Five evocative design stories
- From simple to bold expressions
- Repeatless installation
- Easy replacement
- Minimal wastage
- Recolourable in contrasting colours
- Minimum order requirements of 40 m² of same standard colour and quality
- Patented Ecotrust backing – 100% recycled textile containing no PVC, bitumen or any other potentially harmful substances
- Undisputed performance standard – EN 1307
- A green profile

CONTRAST

Modular Express by ege

Recolour options

The Modular Express concept offers unique recolouring possibilities on each design, allowing customers to create their very own colour expression. The Contrast designs are presented in a broad range of standard colour combinations and are recolourable in standard as well as in special colours, all with fast sample delivery. When recolouring designs from the Contrast collection it is recommended to follow the guidelines indicated in the catalogue for each design. Emphasizing shadow, highlight and effect colours will ensure a quality installation and bring out the special character of each design.

Flexible and functional

Modular Express is a flexible concept of 48 x 48 cm modular tiles that makes it possible to adapt each room to the continuous changes a building goes through. Tiles can be removed whenever needed to provide easy access to cables and leads located in the floor underneath. This makes it easy to undertake repairs or new installations without having to shut down an entire area.

The Modular Express concept is flexible and functional when it comes to transportation, handling, installation and creating an individual design expression. It is therefore the obvious flooring solution for many different environments and segments, such as offices, shops, hotels, casinos and airports.

Improved working environment

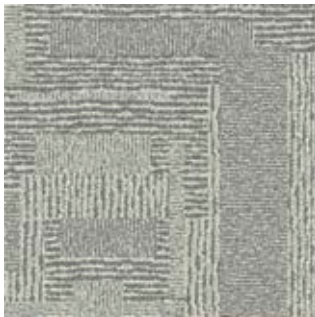

In addition to improved acoustics, Modular Express ensures a healthy indoor climate due to the 100 % textile modular backing without PVC, bitumen or glass fibre scrims. The healthy indoor climate is underlined by the approval in accordance with the Danish Indoor Climate Labelling scheme (DIM), serving as a guarantee that Modular Express carpets ensure indoor climates which provide optimal conditions for comfort and well-being.

Green profile

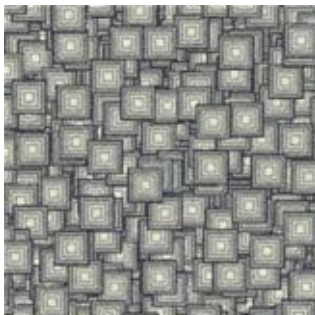

Modular Express tiles can be produced in a variety of loop and cut pile qualities which are compliant to the very latest and most stringent standards for wear life classification and long term appearance retention – EN 1307. Furthermore, a number of environmental certificates such as BRE and LEED document the environmental impact of Modular Express.

SQUARE ONE

Inspired by architectural constructions Square One plays with dimensions and layers of space, levels and lines. Frames, grids and constructions are broken up and assembled in new ways, creating both simple and complex compositions with great depth. A perfect selection for underlining architecture and building constructions in man-made surroundings.

CAMOUFLAGE

Camouflage offers a tasteful translation of natural surfaces born to camouflage. From the wilderness of the jungle and the ruffle bark on a tree, to the delicate grains on a sandy beach. This selection provides homogenous natural floorscapes along with intriguing surfaces that bring glimmer of light and shadow into play.

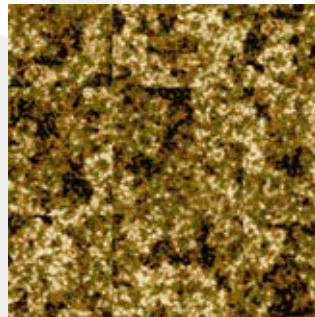

A compound selection of both subtle and wild designs with a broad range of applications.

DYNAMIC LINES

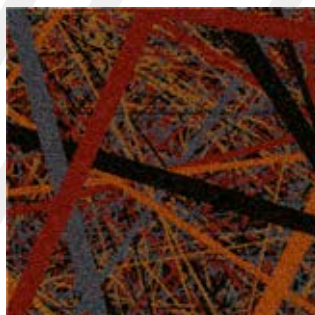

A stylish group of new interpretations of one of the simplest design elements. Dynamic Lines explores a broad range of expressions: from rigid to loose and classic to wild. From rhythmic and abrupt to kaleidoscopic; Dynamic Lines has it all! Ranging from simple to complex these designs create motion and drive. An intriguing selection perfect for business forerunners.

TYPO-GRAPHIC

Inspired by the never-ending flow of information in the modern society, Typo-graphic offers a stylish selection of designs playing with letters and numbers. The detached sentences and layered characters tease the mind to identify words and series of numbers, and the random compositions bring depth and new meaning into play. An inspiring selection with an intellectual touch suited for modern interiors.

ORGANIC MOOD

RFM52756545 Natural Stone

A group of evocative designs interpreting elements found in nature. These designs mirror organic structures from smooth to rough inspired by stone, water and wood. The Organic Mood designs bring out natural components in interiors and surroundings making it perfect for resorts, hotels and other environments with a nature-inspired style. A rustic choice that invites to feel relaxed, comfortable and free.

Recolour effect in contrast to the background

How to read the recolour information

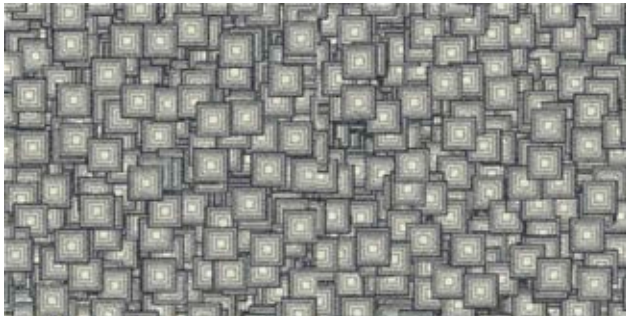

Gradient or photographic effects

Some of the Contrast designs should be recoloured with colours grading from dark to light to retain the character of the design. When recolouring, please select a range of colours from dark to light as indicated in the gradient bar shown below the design in question.

In the example below, the range of colours from black to light grey have been substituted with a range of colours from dark to light brown.

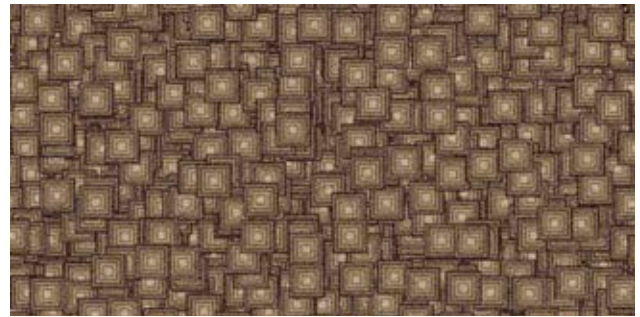

RFM52206123

2 x 1 tiles

ES60012MIX-21

2 x 1 tiles

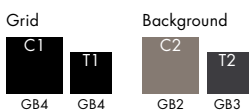

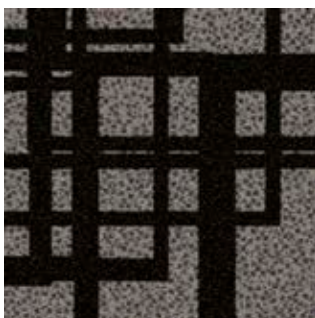

Tonal effects

Some of the Contrast designs contain colours that are toned with a tiny texture in a tonal colour to obtain a vibrant, nuanced look and to spice up larger solid areas in the designs.

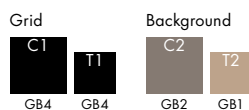

This texture is illustrated as follows:

Main colours are shown with a large colour box (C1, C2 etc), whereas the corresponding tonal colours are shown with a smaller colour box (T1, T2 etc).

A texture with a dark tone will appear more dotted in the finished product

A texture with a light tone will appear more even in the finished product

A texture with same tone as the main colour will look solid in the finished product

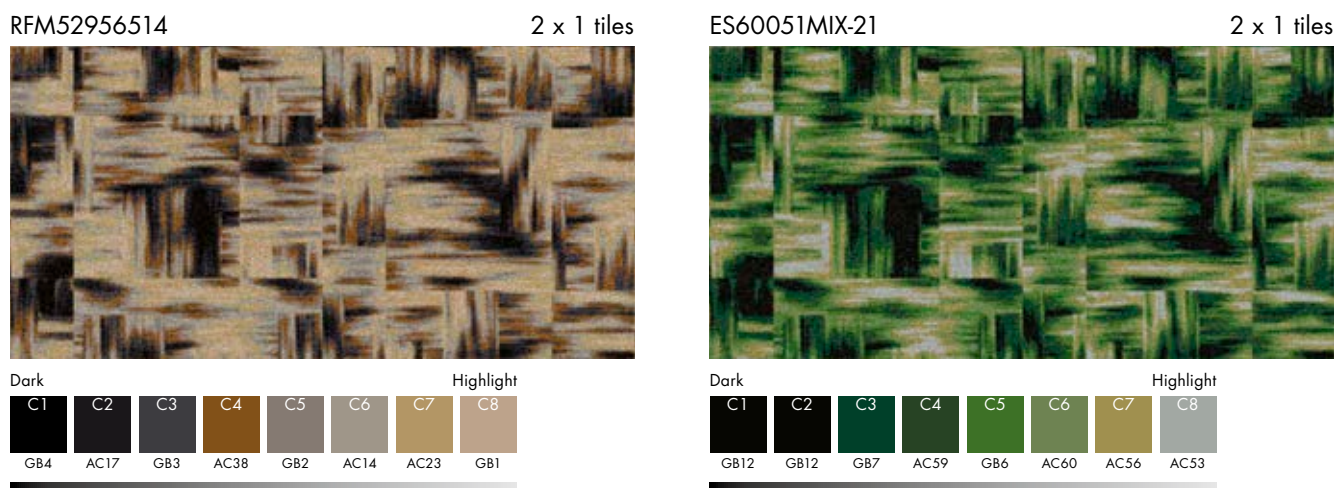

How to recolour

Easy recolouring

Simply contact your ege customer care contact and explain your wishes. Subsequently, one or more suggestions on print or sample will be prepared for you. We always recommend a sample of your chosen design, so you can experience the full richness of the different textures in the collection before actual order.

Example:

You like design Wood Weave RFM52956514, but prefer to see it in a green version, with GB6 and GB7 from palette 5220 as dominant colours.

Contrast – MODULAR EXPRESS by ege

Contrast is a flexible collection of 48x48 cm carpet tiles offering the possibility of creating individual and evocative modular flooring solutions. Consider style, design, texture and budget and select the Modular Express quality matching your requirements.

Create unique flooring solutions by selecting designs from the collection or recolour with the highline express palettes or special colours to fit your needs.

- 31 specially selected designs in a variety of standard colours
- Recolourable in contrasting colours
- Available in 4 modular qualities (see technical specifications p. 99)
- Patented Ecotrust backing – 100% recycled textile containing no PVC, bitumen or any other potentially harmful substances
- Undisputed performance standard – EN 1307
- Performance classifications to fit any need; heavy and extra heavy use
- Minimum order requirements of 40 m² per quality and per colour palette, 200 m² for special colours
- Standard size – 48x48 cm – from 40 m². Special size – 96x96 cm – from 200 m²
- 24 hours sample service – 40x40 cm
- Sales conditions follow the standard guidelines for Highline Modular Express
